

ILLENIUM

A stylized, jagged red graphic resembling flames or a city skyline silhouette, positioned at the bottom of the page. It features several vertical, pointed shapes of varying heights, some with white, irregular cutouts or openings. The entire graphic is set against a solid black background.

MIKE PETERSON

Based out of San Diego,
Ca, we are a group of
individuals with a common
goal, to make a stand in
skateboarding. After
months of product
development, promotion,
and the assembling of a
strong Family, we now
feel we can offer you
quality products second
to none. Our aim is to
make a positive
contribution to our
culture for the longevity
of skateboarding.

...NOW IS THE TIME.

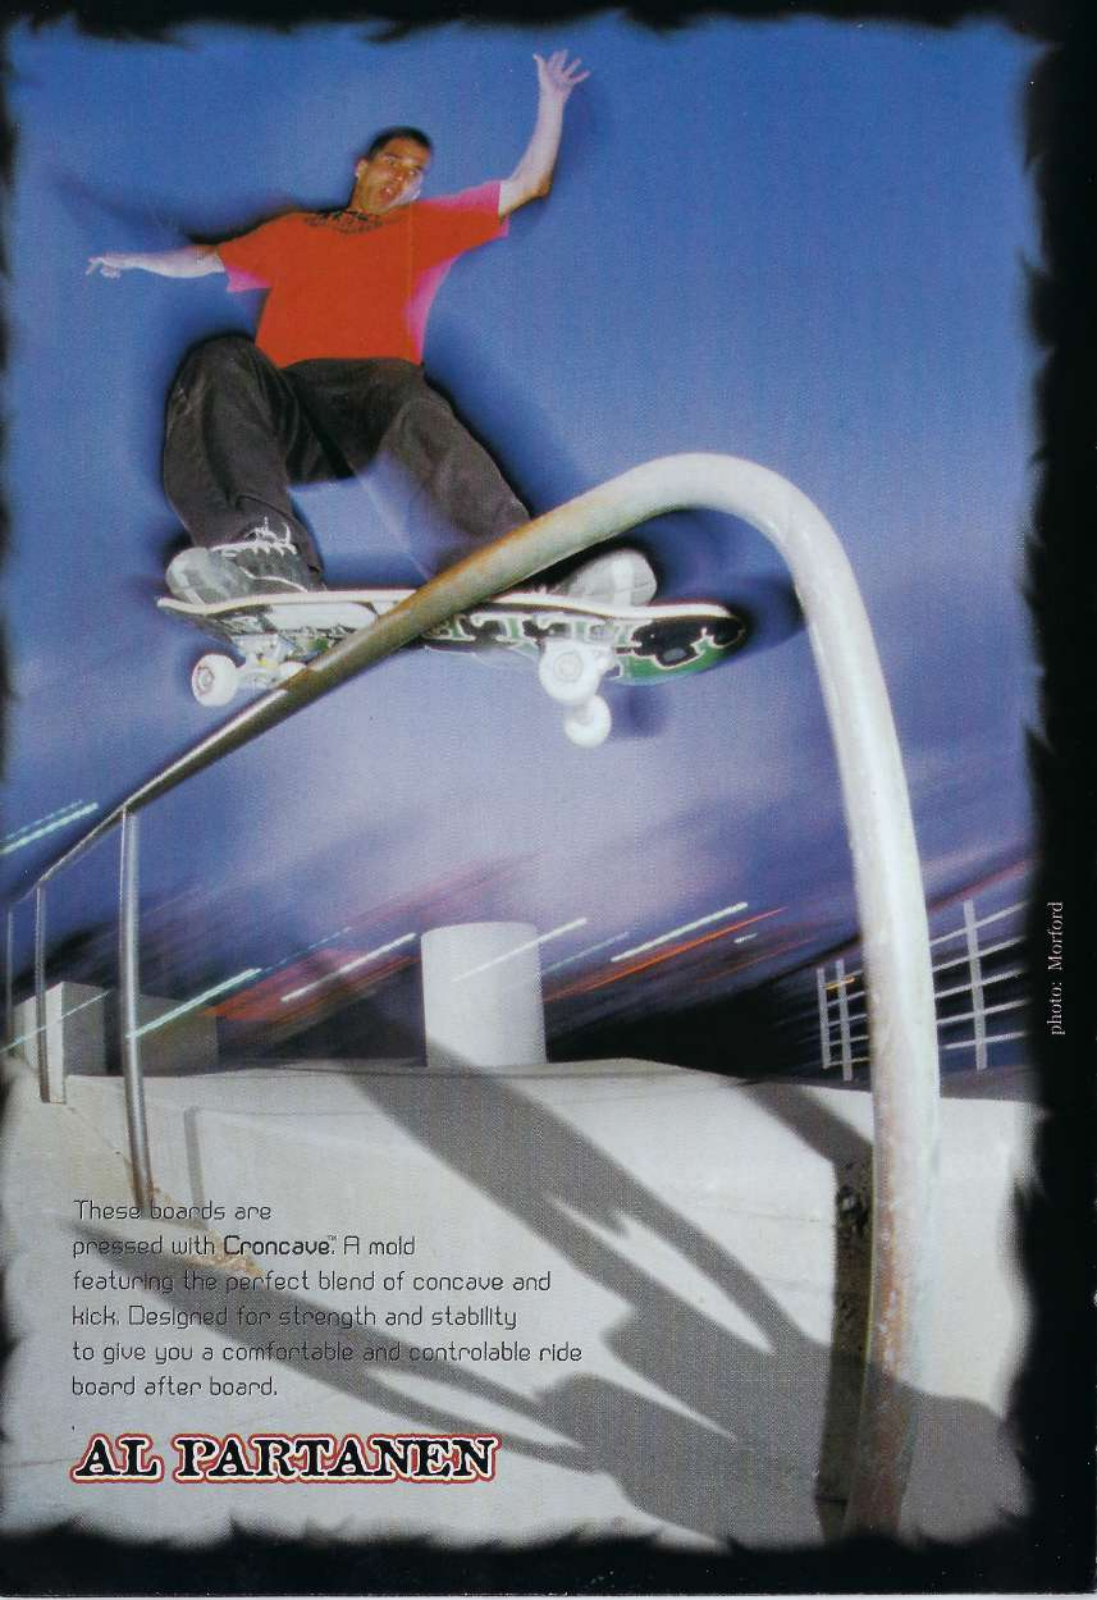

photo: Morford

These boards are pressed with **Croncave**®. A mold featuring the perfect blend of concave and kick. Designed for strength and stability to give you a comfortable and controllable ride board after board.

These boards are
pressed with I-Tech™ concave

This mold has been painstakingly designed,
worked, skated and reworked many times over.

It's the deep concave from nose to tail that provides the
strength, control and Mega-Pop™ these boards deliver.

Check 'em and you'll see and feel that we've done our homework - FOR YOU!

•Technically advanced footlock Systems™ by Illenium.
